LULLABY

Circus show

THE SHOW

A duo of acrobats and new parents present us a show of teeterboard and hand to hand where we will see frenetic jumps and last minute grabs. It's 5 minutes before the show starts, but the babysitter doesn't show up. There is no alternative: the show has to start, and the baby will accompany them. They grab the stroller and head out onto the dance floor.

Their most difficult task today is still not the somersaults and the pirouettes, but the CONCILIATION. And this is how chaos and clumsiness become comedy to reach the final goal: to finish the show having survived.

THE COMPANY

Proyecto Kavauri is a contemporary circus company formed by Claudia and Angelo, from Tresperté, who after ceasing their activity in 2021, bet on the creation of this new company.

In 2010 they formed Tresperté with their two partners Paco and Luis, after their training at the CAU Circus School in Granada. With the company they created the shows “Oopart”, “Aquí sobra uno” and a co-production with other Andalusian artists: “Ludo Circus Show”. They have made more than 1000 performances, going through the best fairs and festivals, touring 10 different countries and receiving different awards at national and international level. After 10 years of training and teamwork, they launch this new format in duo where they will put on stage and behind the scenes everything they have learned and experienced after the tours that the previous shows gave them. Humor, acrobatics and teeterboard will continue to be their driving force on stage. In June 2023, after the premiere, Lullaby win 11 prizes in Festival Circada.
